

RISE Engineering, a division of Thielsch Engineering, Inc., is one of the largest and longest operating energy services companies in the country. Our staff includes licensed electricians and registered apprentices who install energy efficiency upgrades in commercial and industrial buildings throughout New England.

Due to growth in demand for our services, we have an opening for an additional licensed journeyman in Boston. This position is a secure, long-term opportunity for a qualified candidate.

Experience in the installation of premium efficiency lighting upgrades is strongly preferred. Familiarity with energy management systems, controls, variable frequency drives or high efficiency motors is helpful, but not essential. The ability to follow detailed work orders and provide accurate written documentation and progress reports is important. Candidates should demonstrate that they are reliable and can be counted on to work productively with minimal supervision. Valid driver's license is required.

Candidates for a journeyman position must hold a current MA license and reside in the Boston area.

We offer competitive compensation with monthly incentives for sustained productive performance. Our comprehensive benefits include; health care coverage, paid vacation, holidays, sick days, and life insurance. Our parent company, Thielsch Engineering, Inc., offers an aggressive employee stock ownership plan (ESOP) in addition to our 401k retirement savings plan. EOE.
